Persian — Native

English — Advanced (C1 EF SET; B2, Warsaw University of Technology)

Turkish — Intermediate, conversational

German — Beginner, actively learning

Erfan Boostan

Mobile & Web Developer

Mobile and web developer with paid, shipped products live on the App Store and Google Play. Built KibRide, a ride-hailing platform for North Cyprus, in Kotlin Multiplatform on a Firebase backend, and delivered the frontend and UI/UX for Automech, a mechanic marketplace running in six countries. Comfortable owning a product from design through to store release.

EXPERIENCE

RingosTechnology — Mobile Developer

Built and shipped **KibRide**, a ride-hailing platform for North Cyprus, live on the App Store and Google Play (*com.kibride.passenger.android*) with my details listed as developer contact. Kotlin Multiplatform for shared logic across Android and iOS, with a full Firebase backend: authentication, Firestore data model and real-time ride state. Separate passenger and driver apps, plus the marketing site on a custom domain. kktc.kibride.com

Automech — Frontend & UI/UX Developer (contract)

Mechanic marketplace live across Cyprus, Greece, Estonia, Latvia, Lithuania and Germany, on Google Play (*app.automateonline.user*). Designed and deployed the responsive product site and delivered the UI/UX for both the consumer and mechanic-facing apps. React, Next.js, Tailwind CSS. auto-mate-landing.vercel.app

Self-employed — Real Estate Agent

2022 – 2023

Sourced clients and negotiated terms independently.

PROJECTS

Vibe Quest — Founder & Developer

Own product concept: a real-world meetup and skill-swap platform for Cyprus. Designed the positioning, information architecture and full multi-page marketing site in React and Next.js, covering the product model, matching system and partner-venue revenue streams. vibequest-ten.vercel.app

Social Networking App — Full-Stack Developer

Cross-platform mobile social network built with Expo (React Native), alongside custom backend APIs for data persistence, authentication and user interaction.

SKILLS

Mobile	Kotlin · Kotlin Multiplatform (KMP) · Expo / React Native · App Store & Google Play releases
Web	React · Next.js · TypeScript / JavaScript · Tailwind CSS · Responsive UI/UX design
Backend & Cloud	Firebase (Authentication, Firestore, real-time data) · REST APIs · Python · Git · Vercel
AI	LLM API integration · prompt design · shipping AI features into production apps
Also	C# · C++ · Pandas · data cleaning and analysis

EDUCATION

Cyprus International University — BSc, in progress

2023 – present

Warsaw University of Technology — Foundation Year

2020 – 2021

Georgian-American School Progress — High School

2018 – 2020
